

FROMENTAL

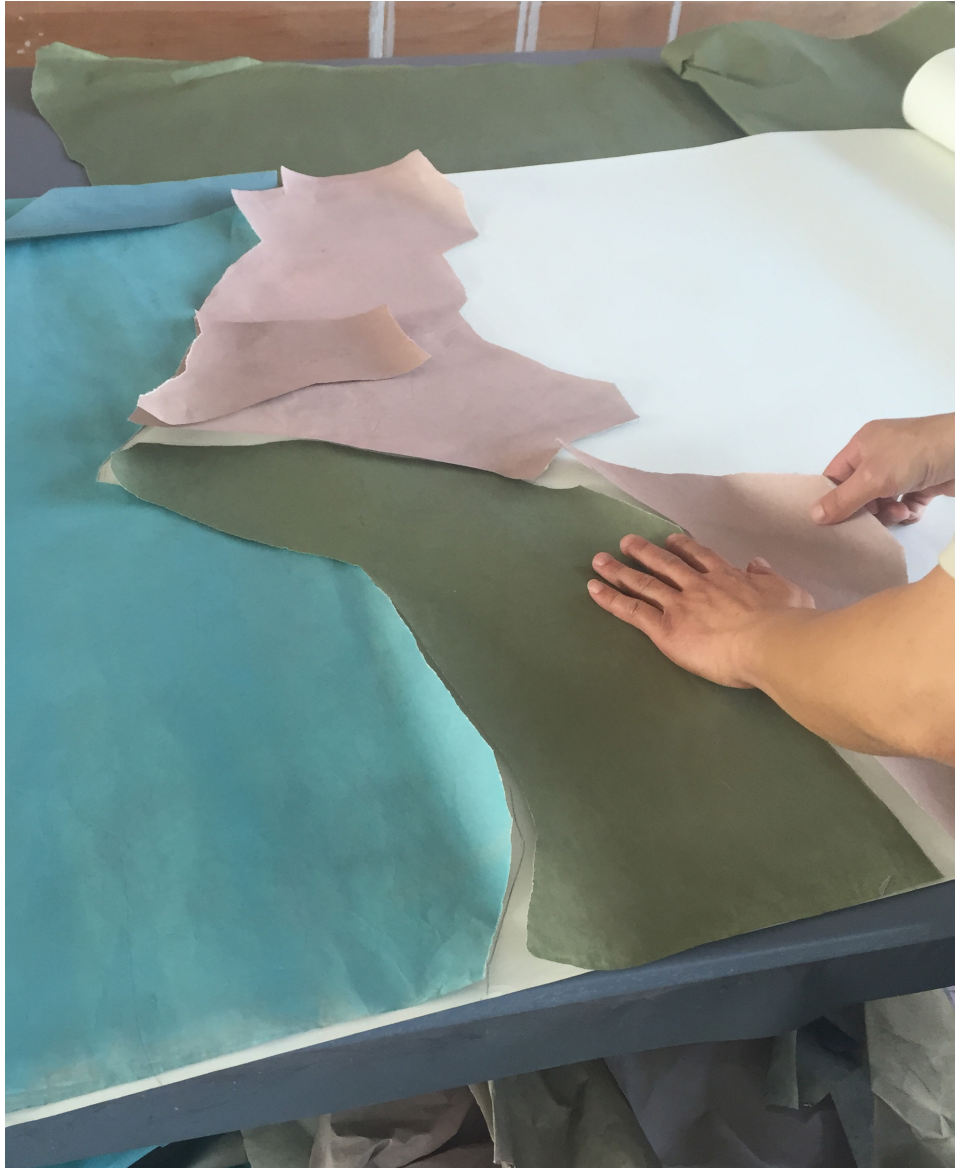

Rockface
Lumière

A striking depiction of the natural composition and rugged beauty of the mountainscapes of California. The rawness of the subject matter is captured in the torn collage technique. The design works simultaneously as an elegant backdrop and bold statement piece.

Overlaid sheets of hand-dyed and lacquered paper are finished with hand-painted details.

Rockface R033H/P

Fromental wallcoverings are hand-made to order, tailored for each room. From supplied elevations and floor plan we will place the design and panel seaming to ensure optimal installation.

Technical Information

Material and Technique

Our Rockface design is available using two different techniques:

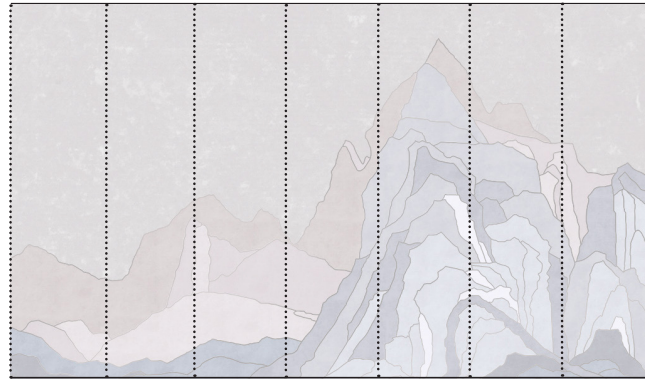

R033H - Fully handmade, our studios will skilfully collage torn pieces of our Cartonnage paper, layering to create the Rockface composition before hand-finishing with sleek metallic lines. This highly lacquered paper imitates softly burnished and creased leather. Hand-dyed and finished with wax, each piece of Cartonnage is completely unique.

R033P - Back-printed and hand-finished in our studios. This method is more controlled, giving a more graphic finish to the design and more colour consistency overall.

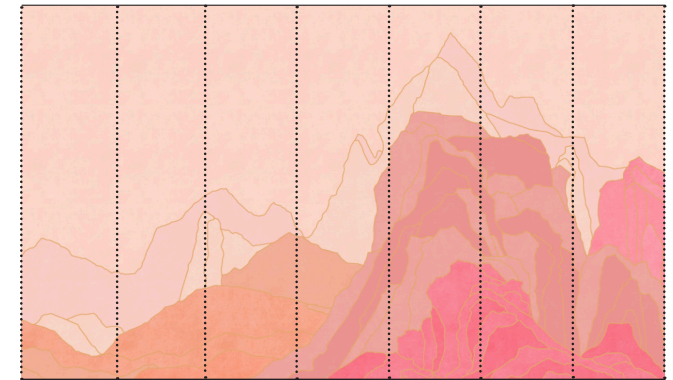

Dimensions

Height - Panels are supplied 300mm/12" higher than specified wall height. Standard panel height is up to 4300mm/14ft. Taller panels are available with a surcharge.

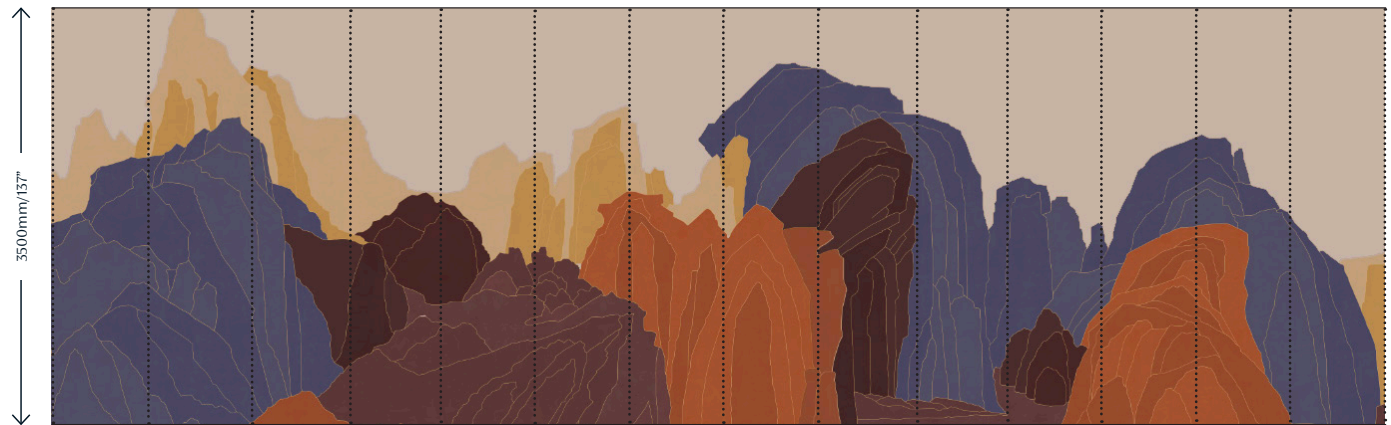

Width - Standard panel width 915mm/36" plus 15mm/ 1/2" trim.
