

FROMENTAL  
by  
SOPHIE PATERSON

Safari  
Collaboration Collection

Based upon a classic scenic but with a modern playful twist, 'Safari' depicts a rural landscape design, adorned with exotic animals. Featuring a plethora of wildlife ranging from majestic peacocks to striking giraffes and families of elephants.

“I wanted to create a wallpaper that was both whimsical and stimulating for a toddler and would also transition into childhood and beyond.

I'd happily have this wallpaper in my own room. At first glance it is very sophisticated and restful, the animals are fun, playful details.”

# Colourways

01 **Fawn** on Faux Silk

02 **Delft Blue** on Faux Silk

03 **Dusty Pink** on Faux Silk

# How to Order

Fromental wallcoverings are made to order. The designs within the Sophie Paterson Collection consist of a series of panel layouts which then repeat.

Each design can be ordered as a straight run or tailored to fit by both trade and retail clients. Please note, there is a 4 panel minimum order.

- **Straight-run**  
Supplied as a series of joining panels. In order to calculate the number of panels required, simply specify the wall height and the perimeter of the walls to be covered.
- **Tailored**  
We can also tailor this design to each room by placing the design layout and panel seaming to fit the space. To ensure optimal installation, we will also take care to avoid placing Safari animals and other major design elements on wall corners or at windows and doors. We will submit a miniature design layout for client approval prior production.

This service carries a tailoring fee between 10-30% depending on complexity.

## Dimensions:

### Width

Faux Silk - 1270mm/50"

### Height

Standard panel height is 3m / 10ft. Design height is set based on your supplied wall height.

Taller panels are available when purchased with tailoring fee.

Extra plain background can be ordered to complete the space.

Standard delivery times vary from 4 to 12 weeks depending on the design.
